3-2 How to calculate the retirement income

When filing the retirement income, it is calculated as follows.

- In case of general retirement allowances, etc. which are retirement allowances other than specified officer retirement allowances only
  \[(\text{Amount of earnings from general retirement allowances etc.}) - \text{Deduction for retirement income}^1\] \times 0.5

- In case of specified officer retirement allowances, etc., which are paid as retirement allowances corresponding to a service period of five years or less as officers only
  \[(\text{Amount of earnings from specified officer retirement allowances etc.}) - \text{Deduction for retirement income}^1\]

- In case of both general retirement allowances, etc. and specified officer retirement allowances, etc. (1)+(2)

\[
\begin{align*}
(1) \quad & \left( \frac{\text{Amount of earnings from general retirement allowances etc.}}{A} \right) - \left( \frac{\text{Deduction for retirement income}^1}{B} \right) \times 0.5 \\
2 \quad & \text{Specified officer retirement allowances etc.} - \text{Deduction for specified officer retirement income}^2 \\
\end{align*}
\]

When falling under the following (1) or (2), one of the following is applied regardless of the above.

\[
\begin{align*}
(1) \quad & \left[ \frac{A}{B} \right] < 1 \\
\quad & \left( \frac{\text{Amount of earnings from specified officer retirement allowances etc.}}{A} + \frac{\text{Amount of earnings from general retirement allowances etc.}}{B} \right) - \text{Deduction for retirement income}^1 \\
(2) \quad & \left[ \frac{C}{D} \right] < 1 \\
\quad & \left( \frac{\text{Amount of earnings from general retirement allowances etc.}}{C} - \frac{\text{Deduction for retirement income}^1}{D} \right) \times 0.5 \\
\end{align*}
\]

*1 The deduction for retirement income is calculated as follows.
  i. For individuals whose employment period is 20 years or less;
     400,000 yen \times \text{number of years of employment} (*800,000 yen if less than 800,000 yen)
  ii. For individuals whose employment period is more than 20 years:
     700,000 yen \times \text{number of years of employment} - 6,000,000 yen

Individuals who have ceased working due to a disability may add 1,000,000 yen to the amounts as calculated above.

*2 The deduction for specified officer retirement income is calculated as follows.
  i. In the case that there is no overlap between the service period concerning specified officer retirement allowances and the service period concerning general retirement allowances, etc.
    400,000 yen \times \text{Service years of specified officers, etc.}
  ii. In the case that there is overlap between the service period concerning specified officer retirement allowances, etc. and the service period concerning general retirement allowances, etc.
    400,000 yen \times (\text{Service years of specified officers, etc.} - \text{Overlapped service years})
     \quad + 200,000 yen \times \text{Overlapped service years}

© For the amount of earnings from retirement income and the deduction for retirement income, please write them in the block "○ Matters relating to the retirement income [○ 退職所得に関する事項]" on the Page 3 of your return. If you received a specified officer retirement allowance, please write the amount of earnings and the deduction for the retirement income in brackets on the upper column.
