3-7 Obligation to file consumption tax return and necessary report

1. For sole business proprietors whose taxable sales exceed 10,000,000 yen for 2018
   • If your taxable sales for 2018 exceed 10,000,000 yen, you will be categorized as a taxable person for the purpose of consumption tax in 2020. If you newly become a taxable person, please submit "Notification of Taxable Enterprise Status for Consumption Tax (for base period)" to the Tax Office with jurisdiction over the location of your address etc. without delay.
   • In general, the amount of consumption tax due is calculated by deducting the consumption tax imposed on taxable purchases from the consumption tax imposed on taxable sales. However, individuals whose taxable sales in the second preceding year before the taxable period amounts less than 50,000,000 yen can select the "simplified tax system" by which the amount of tax in calculated based on the consumption tax imposed on taxable sales without calculating their actual consumption on taxable purchase. In case of selecting "simplified tax system", the amount of consumption tax due is calculated by to consider the amount calculated by multiplying the amount of consumption tax on taxable sales by certain "deemed purchase rates" to be the amount of consumption tax imposed on taxable purchases.
   • Sole business proprietors who will select filing returns using the simplified tax system from 2020 must submit "Report on the Selection of the Simplified Tax System for Consumption Tax" to the Tax Office with jurisdiction over the location of your address by December 31, 2019.

2. For sole business proprietors whose taxable sales exceed 10,000,000 yen for 2016
   • If your taxable sales for 2016 exceed 10,000,000 yen, you will be categorized as a taxable person for the purpose of consumption tax in 2018.
     In such a case, you are required to file your consumption tax return and make tax payment by Monday, April 1, 2019.
     • Even if taxable sales are 10,000,000 yen or less for 2016, those whose taxable sales exceed 10,000,000 yen for the specified period (from January 1, through June 30, 2017) will be categorized as taxable person for the purpose of consumption tax in 2018.
       Meanwhile, you can use the total amount of salaries etc. paid instead of taxable sales to determine if you are categorized as a taxable person or otherwise.
       • Taxable sales mean the sales from transactions subject to the imposition of consumption tax (including transactions conducted concomitantly with business activities, such as the sale of a building for business purposes). Sales from most of the transactions fall under taxable sales; however, income concerning transactions exempt from consumption tax is excluded, such as income from the sale of land and housing rent. Taxable sales also include manuscript fees, royalties, performance fees, lecturer's fees, remuneration for lecturers, and income from a side job using the Internet.
       • Please note that a taxpayer under the general taxation system (those not under the simplified taxation system) may not deduct consumption tax paid at the time of purchases and the payment of expenses without both a ledger and an invoice stating taxable purchases etc.
