1-2 What is the final return?

The income tax in Japan adopts procedures to calculate by the taxpayers themselves the amount of taxable income and income tax etc. on the income in accordance with their own type of residential status (see the next section), file a final return by the due date of the following year, and settle the excess or deficiency with the amount of tax withheld or estimated tax prepayment, regarding the income earned during the year from January 1 to December 31 of that year. This procedure is called a final return.

- Income tax in Japan adopts the self-assessment system. The self-assessment system is a system under which the tax amount is primarily determined through the filing of a tax return by each taxpayer. Under this system, taxpayers, who best know the state of their own income, calculate the amount of taxable income and the tax on the income by themselves and file proper returns on their own responsibilities.
- Income tax in Japan adopts the withholding tax system for specific incomes along with the self-assessment system. Under the withholding tax system, the payers of salaries and wages, retirement allowance, interest, dividends, and fees etc. withhold the certain amounts of income tax etc. at the time of payment and pay them to the national treasury.
- You are advised that “Special Income Tax for Reconstruction” is added to the income tax for each year from 2013 through 2037. This tax is 2.1% tax on the amount of your income tax to help finance various measures of reconstructions from the aftermath of 2011 Tohoku earthquake and tsunami, which is also referred to as the Great East Japan Earthquake. In this guide, income tax and special income tax for reconstruction are referred to as income tax etc.

1-3 Taxpayers and the scope of taxable income

Any individual is subject to tax liability of income tax etc. in accordance with the following residential categories.

1. Classification for residential status

1) Residents

Any individual who has a “JUSHO (domicile)” or owns a “KYOSHO (residence)” continuously for one year or more is classified as a **resident**.

Among residents, any individual of non Japanese nationality who has had a domicile or a residence in Japan for an aggregate period of five years or less within the preceding ten years is classified as a **non-permanent resident**.

2) Non-residents

Any individual other than the residents mentioned in “1) Residents” above is classified as a **non-resident**.

Note:

If a person who owns a residence in Japan leaves Japan with the intent to be absent temporarily and later reenter Japan, the person shall be treated as having been residing in Japan during the period of absence.

The intention to be absent temporarily will be presumed if, during the period of absence, (a) the person's spouse or relatives remain in the household in Japan, (b) the person retains a residence or a room in a hotel for residential use after returning to Japan, or (c) the person's personal property for daily use is kept in Japan for use upon return to Japan.

(Reference 1) Classification of taxpayers

- In cases where an individual has not owned his or her domicile during the period from the date of entry into this country to the date on which one year has elapsed.
 - The individual mentioned above is deemed “a non-resident” until the date on which one year has elapsed from the date of entry into this country and “a resident” after the date following that on which one year has elapsed.
- In cases where an individual did not own his or her domicile in this country immediately after entry into this country, but has owned his or her domicile during the period from the date of entry into this country to that on which one year has elapsed.
 - The individual mentioned above is deemed “a non-resident” until the date before that on which he or she owned his or her domicile and “a resident” after the date on which he or she owned his or her domicile.
- In cases where an individual is a resident of non Japanese nationality and the period during which he or she has owned his or her domicile or residence in this country exceeds five years or more within the last ten years.
 - The individual mentioned above is deemed “a non-permanent resident” until the date on which five years have elapsed and “a resident other than a non-permanent resident” after the date following that on which five years have elapsed.

(Reference 2) Judgment (presumption) of the presence of a domicile

Fact	Judgment	Remarks
An individual's base of living is in Japan.	Judged as having a domicile	Whether the base of living is in Japan is judged by the presence of objective facts, for example, an individual has an occupation in Japan, an individual lives together with his/her spouse or any other relatives, or an individual owns a place of business.
An individual has an occupation which normally requires living in Japan continuously for one year or more.	Presumed as having a domicile	An individual who came to live in Japan in order to operate a business or engage in an occupation in Japan falls under this division (except for the case where it is clear that the period for staying in Japan is previously arranged to be less than one year by a contract, etc.)
There are facts by which it can sufficiently be presumed that an individual has been living continuously for more than one year in Japan whether such individual has the Japanese nationality and has relatives who live together with such individual, or such individual has its occupation and assets in Japan.	Presumed as having a domicile	-

Note: Any individual who came to live in Japan to learn science and practical arts is treated as having an occupation in Japan for the period of living for learning in Japan.

2. Scope of taxable income

1) Residents other than non-permanent residents

Residents other than non-permanent residents are obligated to pay the income tax etc. for their whole income.

2) Non-permanent residents

Non-permanent residents are obliged to pay income tax etc. with respect to their (a) income other than foreign source income, (b) foreign source income paid in Japan and (c) foreign source income paid abroad and remitted to Japan from abroad.

The amount "remitted to Japan from abroad" means, among the amount remitted and received by non-permanent residents from abroad to Japan in each year, "the amount exceeding the amount of the income other than foreign source income paid abroad" in that year.

【Example】

Income other than Foreign Source Income (750)		Foreign Source Income (250)	
A Paid in Japan	B Paid Abroad	C Paid in Japan	D Paid Abroad
500	250	150	100

In the case that a non-permanent resident remits and receives 260 from abroad to Japan, among the amount of 350 (B+D) paid abroad, 250 (B) portion is first deemed to be the remittance of the income other than foreign source income paid abroad, and then the remaining 10 is deemed to be the remittance of the foreign source income paid abroad (D), which will be taxed accordingly.

3) Non-residents

Non-residents are obligated to pay the income tax etc. for their domestic source income.

➤ Scope of taxable income

		Income other than Foreign Source Income	Foreign Source Income

Resident	1. Persons with the Employment Income *For most people, the income tax etc. is settled by the “year-end adjustment” of employers, so the final return is unnecessary. If you file a final return, it is required to include salary income that received year-end adjustment in the return.

The deduction does not cover losses caused by damage to assets regarded as not normally required for daily living such as paintings, antiques, precious metals and second houses. These can be deducted from capital gains subject to the aggregate taxation (see page 23) in the year 2019 or 2020.

Those whose total income amount ([所得金額の合計額]) ^{*2} in 2019 is 10,000,000 yen or less and who sustained damage extending to half or more value of their residence and household effects may claim the deduction for casualty losses or, if it is more profitable, they may select the reduction or exemption under the “Act on Reduction or Release, Deferment of Collection and Other Measures Related to Tax Imposed on Disaster Victims.” (see page 46) ^{*3}

^{*1} Expenses related to disasters mean those incurred for the demolition or removal of property or household effects damaged in disasters etc. Expenses related to disasters include expenses for restoration to the original state, such as expenses to remove the earth and sand produced by a disaster only when such expenses are paid within one year (three years for a large-scale disaster, etc.) after the disaster ceased.

^{*2} The total income amount ([所得金額の合計額]) is the amount of the total income ([総所得金額等]) less the amount of special exemption related to the income subject to the separate self-assessment taxation.

^{*3} Whether it is more profitable for you to apply for a deduction for casualty losses or the reductions or exemptions will depend on the amount of your income and loss.

2-10 STEP 6 Items about inhabitant taxes and enterprise taxes regarding the Page 2

Those who have filed final returns for income tax etc. are not required to submit returns for the inhabitant tax and the enterprise tax additionally because the data for said final returns for income tax etc. will be forwarded to local public entities. However, as for the following items, please fill out as appropriate in the "Items about inhabitant taxes and enterprise taxes [住民税・事業税に関する事項]" on the Page 2, since the treatment of those items is different between the inhabitant tax, the enterprise tax and income tax etc.

Please contact your local municipal office for more detail.

The prefectural or municipal authorities will calculate each individual's tax amount, based on the figures in the final return for income tax etc., and notify taxpayers directly.

For persons with no obligation to file final returns for income tax etc., there is generally a requirement to file returns for the inhabitant tax with the local municipality and to file returns for the enterprise tax with the prefectural government.

The requirements for "family employee of blue return" for local tax purpose are same as income tax.
- If you have any such employees, you must write their name and amount of wages in the appropriate column on the Page 2.

3 Inhabitant taxes

[住民税]

a) A spouse living in the same household [同一生計配偶者]

If you have a **spouse living in the same household** (see page 34) other than a **spouse covered by the exemptions** (see page 34), write the spouse's name, Individual Number (My-Number) (if he/she has), date of birth, and address if he/she does not reside with you.

b) A dependent under the age of 16 years [16歳未満の扶養親族]

If you have a dependent under the age of 16 years who is not eligible for the exemption for a dependent (see page 35), please write the dependent's name, Individual Number (My-Number) (if he/she has), relationship with you, date of birth, and address if he/she does not reside with the taxpayer.

However, if these sets of documents were attached to a return for inhabitant tax, application for dependent of employment income earner or recipient of public pensions, etc. when these documents were submitted, there is no need to submit them again separately.

c) Special provisions for computing dividend income [配当に関する住民税の特例]

“Small-lot dividends” etc., from unlisted stocks which you have chosen not to report in your tax return of income tax etc. (see page 56) are aggregated with other income and inhabitant tax is imposed on the aggregated income. Therefore, it is necessary to write them.

Following the formula below, write the amount entered in the box in the appropriate columns on the Page 2.

Amount of dividend income (block ⑤ on the Page 1)	yen	A
Small-lot dividends, etc., from unlisted stocks you opted not to report on your return.	yen	B
Special provisions for computing dividend income (A + B)	yen	C

* Write the amount of inhabitant tax that is specially collected (the amount of tax imposed on dividend income) in the block of Deduction of allocated dividend amount.

e) Deduction of allocated dividend amount[配当割額控除額]**Amount of deduction for income received from transfer of stocks, etc. [株式等譲渡所得割額控除額]**

Regarding the amount of the so-called “specific dividend etc.” from which the prefectural inhabitant tax dividend rate (5% of the tax rate) is specially withheld during 2019 and the amount of the so-called “income received from transfer of specific stocks etc.” from which the prefectural inhabitant tax for income received from transfer of stocks, etc. (5% of the tax rate) is specially withheld, ① in the event that the amount of withholding income tax was not included in the final income tax return because of your choice, the amount for inhabitant tax will be considered as being part of special withholding, and ② in the event that the amount of withholding income tax was included in the final income tax return and a deduction or refund of the withholding income tax etc. is received, a deduction or refund for the amount specially withheld for inhabitants tax will also be receivable.

Thus, if you include the amount of such specific dividend etc. or income received from transfer of specific stocks etc. in your final income tax return, please write the amount of the prefectural inhabitant tax dividend rate and amount of deduction for income received from transfer of stocks, etc. in the respective column of “deduction of allocated dividend amount” and “amount of deduction for income received from transfer of stocks, etc.” on the Page 2. Please note that if you omit the writing, there may be cases that you are not eligible to this deduction.

- In the case of ② above, if municipal authorities have decided on awarding a refund to you for specially withheld tax after calculating your amount of tax, you will be notified by your municipality concerning the decision and procedure for receiving your refund.

- * For a donation made as charity fund relating to the Great East Japan Earthquake to a fundraising organization or Kumamoto Earthquake Disaster Charity Fund, such as the Japanese Red Cross Society or Central Community Chest of Japan, which is finally distributed to the local governments which suffered disasters or charity fund distribution committee, please specify it in the “prefectures or municipalities (eligible to special deduction).”
For example, if you misplaced the amount of your donation made to the Japanese Red Cross Society as the support money for the Kumamoto Earthquake Disaster in the field of “Community chest or local chapter of Japan Red Cross Society in area of domicile, and prefectural/municipal portion (other than being eligible to special deduction)” instead of “Prefectural/municipal portion (eligible to special deduction),” the amount of tax credit for donation cannot be correctly calculated.

3 Information good to know about filing tax return & payment of tax

3-1 Taxation methods for the interest income and the dividend income

1. Selection of the Aggregate Taxation and the Separate Self-assessment Taxation

(1) **Interest income** related to dividends etc. on listed stocks etc.

When filing, these are subject to the separate self-assessment taxation, and the aggregate taxation cannot be selected.

(2) **Dividend income** related to dividends on listed stocks etc. (Excluding those for **major shareholders**, etc. It applies for all below.)

When filing, the separate self-assessment taxation may be selected instead of the aggregate taxation. However, if you choose to use the separate self-assessment taxation, you are not eligible to receive credit for dividends.

*1: In case of the separate self-assessment taxation, the applicable income tax rate is at 15% (inhabitant tax 5%). In addition, the special income tax for reconstruction (see page 47) is imposed in addition to income tax.

*2: When filing the dividend income related to dividends on listed stocks, etc., either the aggregate taxation or the separate self-assessment taxation must be selected for the entire dividend income being filed.

*Please note that you can select the separate self-assessment taxation for the interest income such as mentioned (1) above and the aggregate taxation for dividend income such as mentioned (2) above.

*3: If the dividend income is filed without selecting the separate self-assessment taxation, subsequent filing of this dividend income is not eligible for selection of the separate self-assessment taxation in the case of filing amended return or request a correction to the tax return. The same applies when the separate self-assessment taxation is selected.

2. System that Eliminates the Need to Declare Dividend and Interest Income

For the following interest and dividend incomes (1) through (7), a system is in force that eliminates the need to declare said income because the withholding tax may complete taxation for said income. When choosing to use the system, however, credit for dividends or the withholding income tax etc. may not be claimed.

(1) **Small-lot dividends etc.**

(2) Interest, dividends and similar income from stocks listed on the financial instruments exchange (excluding those for major shareholders, etc.)

(3) Distribution of profit from publicly offered stock securities investment trusts

(4) Dividends etc. from specified investment corporation investment units

(5) Distribution from specified trusts issuing beneficiary securities (restricted to those issued through public offering)

(6) Distribution of profits from corporate bond-like beneficiary rights of special purpose trust (restricted to those issued through public offering)

(7) Interest on **specified bonds**

*1: It is possible to choose the value of each dividend or interest, etc. to be received in single payments (excluding payments from withholding accounts.).

*2: Dividends etc. from specified investment corporation investment units are not eligible for the credit for dividends, even if they are declared.

*3: If a person did not select this system, and instead, filed a final return for these dividend and interest incomes, the person cannot switch to not reporting these dividend and interest incomes in the case of filing amended return or request a correction to the tax return. The same applies in a case which a person did select the system.

3. Dividends, etc. not eligible to credit for dividends

Dividends, etc. that are eligible to credit include dividends from surplus and profits, and distribution of surplus, money and revenues of securities investment trusts earnings, which come from a corporation that is headquartered in Japan, and are limited to dividend income that is subject to the aggregate taxation in filing a final return. Therefore, dividends, etc. received from foreign corporations are not eligible to credit for dividends.

In addition, the following dividends, etc. are not eligible to credit for dividends.

(1) In the case that the system for no requirement to file a tax return is selected.

(2) In the case that the separate self-assessment taxation is selected.

(3) Interest from foundations

(4) Dividends, etc. related to distribution of revenues of management investment trusts, such as private offerings and public corporation bonds

(5) Dividends, etc. related to distribution of revenues of management investment trusts, such as overseas private offerings and public corporation bonds

(6) Dividends, etc. related to distribution of revenues of specified stock investment trusts that trace overseas stock index

(7) Dividends, etc. related to distribution of revenues of securities investment trusts, such as securities in specified foreign currency

(8) Dividends, etc. that will be received from investment trusts by public offering by qualified institutional investors

(9) Dividends, etc. that will be received from specified trusts.

(10) Dividends, etc. that will be received from specified-purpose companies

(11) Dividends, etc. that will be received from investment corporations

- **Explanation of Terms**

- ◆ **Dividends on listed stocks etc.**

Dividends on listed stocks, etc. refers to interest from specified bonds, distribution of profit from publicly offered stock securities investment trusts, dividend on listed stocks, and distributions of profit from public offering stock investment trusts.

- ◆ **Specified Bonds**

Specified bonds refers to national and local government bonds, foreign government bonds, public offering bonds, and bonds issued before December 31, 2015 (excluding corporate bonds issued by family company).

- ◆ **Major Shareholders etc.**

Major shareholders, etc., refers to shareholders who own 3% or more of the total outstanding shares of listed companies, etc.

- ◆ **Small-hot Dividends etc.**

Small-hot dividends, etc. refer to dividends, etc. for which the total value of the payment of a one-time dividend, etc. per stock issue does not exceed the amount computed in accordance with the following formula.

$100,000 \text{ yen} \times \text{number of months in the dividend computation period (maximum of 12 months)} / 12$

* The "dividend computation period" refers to the period from the day following the base date of payment for the most recent dividend, etc. through the base date of payment for the dividend, etc. in question.

Note:

- **Withholding Tax System**

- (1) **Interest income** and **dividend income** related to dividends etc. on listed stocks, etc.
Income tax etc.(15.315%) and inhabitant tax (5%) of the amounts paid are withheld at the source.
- (2) **Dividend income** from dividends for unlisted stocks and listed stocks (paid out to major shareholders)
Only income tax etc.(20.42%) of the amount paid is withheld at the source.

- **Specified Account for Withholding Tax**

Dividends and other payments from listed stocks received in withholding accounts may be subject to aggregation of profits and losses with capital gains of listed stocks in the same account, while it is also possible to elect to use the system that eliminates the need to declare dividend income for each separate account.

In addition, it is also possible to declare either the capital gains in withholding accounts or the **interest** and **dividend incomes** in the same accounts. When declaring capital losses in withholding accounts, however, the amount of **interest** and **dividend incomes** contained in the same accounts must be declared at the same time.

For details, please see "The method (example) for reporting income from sale of stocks, etc.[株式等の譲渡所得等の申告のしかた（記載例）]".

3-2 How to calculate the retirement income

When filing the retirement income, it is calculated as follows.

- In case of general retirement allowances, etc. which are retirement allowances other than specified officer retirement allowances only
(Amount of earnings from general retirement allowances etc. — Deduction for retirement income^{*1}) × 0.5
- In case of specified officer retirement allowances, etc., which are paid as retirement allowances corresponding to a service period of five years or less as officers) only
Amount of earnings from specified officer retirement allowances etc. — Deduction for retirement income^{*1}
- In case of both general retirement allowances, etc. and specified officer retirement allowances, etc. ①+②

$$\textcircled{1} \left\{ \frac{\text{Amount of earnings from general retirement allowances etc.}}{\text{A}} - \left(\frac{\text{Deduction for retirement income}^{\text{*1}}}{\text{B}} - \frac{\text{Deduction for specified officer retirement income}^{\text{*2}}}{\text{B}} \right) \right\} \times 0.5$$

$$\textcircled{2} \frac{\text{Specified officer retirement allowances etc.}}{\text{C}} - \frac{\text{Deduction for specified officer retirement income}^{\text{*2}}}{\text{D}}$$

When falling under the following (1) or (2), one of the following is applied regardless of the above.

(1) $\text{A} < \text{B}$

$$\left(\frac{\text{Amount of earnings from specified officer retirement allowances etc.}}{\text{C}} + \frac{\text{Amount of earnings from general retirement allowances etc.}}{\text{B}} \right) - \frac{\text{Deduction for retirement income}^{\text{*1}}}{\text{B}}$$

(2) $\text{C} < \text{D}$

$$\left\{ \frac{\text{Amount of earnings from general retirement allowances, etc.}}{\text{A}} - \left(\frac{\text{Deduction for retirement income}^{\text{*1}}}{\text{B}} - \frac{\text{Amount of earnings from specified officer retirement allowances, etc.}}{\text{C}} \right) \right\} \times 0.5$$

^{*1} The deduction for retirement income is calculated as follows.

- For individuals whose employment period is 20 years or less;
400,000 yen × number of years of employment ("800,000 yen" if less than 800,000 yen)
 - For individuals whose employment period is more than 20 years:
700,000 yen × number of years of employment - 6,000,000 yen
- Individuals who have ceased working due to a disability may add 1,000,000 yen to the amounts as calculated above.

Please note that the amount of deduction may be different in certain cases, such as you had another retirement income in the past years.

^{*2} The deduction for specified officer retirement income is calculated as follows.

- In the case that there is no overlap between the service period concerning specified officer retirement allowances and the service period concerning general retirement allowances, etc.
400,000 yen × Service years of specified officers, etc.
- In the case that there is overlap between the service period concerning specified officer retirement allowances, etc. and the service period concerning general retirement allowances, etc.
400,000 yen × (Service years of specified officers, etc. — Overlapped service years)
+ 200,000 yen × Overlapped service years

◎ For the amount of earnings from retirement income and the deduction for retirement income, please write them in the block "○ Matters relating to the retirement income [○ 退職所得に関する事項]" on the Page 3 of your return. If you received a specified officer retirement allowance, please write the amount of earnings and the deduction for the retirement income in brackets on the upper column.

3-3 In Case of Suffering from Disaster

If you are suffered from a disaster, there are procedures for filing a tax return and tax payment etc. as follows.

For details, access our website (www.nta.go.jp) or consult the nearest Tax Office.

- If you cannot file a return or pay tax by the due date, due to a reason such as a disaster, you can extend the due date within 2 months from the day on which the said reasons ceased to exist.

(see page 46)

3-4 In Case Tax Payment is Delayed

If a taxpayer fails to pay tax by the due date of tax payment (Monday, March 16, 2020), or if the tax payment by transfer account cannot be made due to insufficient balance of the account, the delinquent tax will be imposed.

In such a case, pay the delinquent tax with the principal tax together at financial institutions or the Tax Office that has jurisdiction over your address.

March 17 to May 16, 2020	"7.3 % per annum" or "Special Standard Rate + 1%," whichever is lower.
May 17, 2020~	"14.6 % per annum" or "Special Standard Rate + 7.3%," whichever is lower.

* Delinquent tax is calculated for the number of days starting from the day following the due date for tax payment to the day on which the whole amount of the principal tax is paid and at the following rate.

"Special Standard Rate" is the rate announced by the Minister of Finance by December 15 of the previous year as the annual average contractual interest rate on bank short-term loan of each month from October of the second preceding year to September of the previous year, plus 1% p.a.

3-5 In Case of Mistakes on a Tax Return

- In the event of mistakes in the amount of tax declared or other details of a return, the following methods should be followed.
- Before the statutory tax return due date for filing tax returns, correct mistakes, prepare a new final return and submit it by the due date.
- After the statutory tax return due date, correct the declared contents according to the following methods.

	Method of Correction
When tax amount, etc. declared in return is less than what it should be	File "amended return" to correct amount. ⁽¹⁾
When tax amount declared in return is greater than what it should be	Request a correction to the tax return in order to correct amounts. ⁽²⁾

*1 If an incorrect return amount is not voluntarily corrected, a District Director of Tax Office will correct it.

*2 In principle, a request for correction is allowed within 5 years from the statutory tax return due date.

- If you have forgotten to file a return by the statutory tax return due date you are requested to file as soon as possible. Furthermore, in cases where there is no final income tax return filed although it is necessary to file, a District Director of Tax Office will decide on the amount of income and tax.
- Please note that in cases where the District Director of Tax Office corrects or makes a determination on a return or cases where returns are filed after the filing deadline, **an additional tax** may be levied, and concurrent payment of a **delinquent tax** will also be required for the period from the day following the legal filing deadline through the date of actual payment.

3-6 Estimated income tax etc. prepayment and Application for reduction of estimated tax prepayment

Income tax etc. are to finally calculate income and tax amount for one year and a final return is filed during the filing period of the following year and the tax in question is paid.

Meanwhile, the Tax Office notifies the taxpayer of the amount of estimated income tax etc. prepayment in cases where the base amount for the estimated tax prepayment calculated based on the previous year's final tax return is 150,000 yen or more. The taxpayer is then requested to pay the tax liability in two installments, in July and November. This system is called estimated income tax prepayment.

Taxpayers may submit an application to have the amount of estimated tax prepayment reduced if their income tax etc. amounts of the following year are estimated to be less than the amount of the base amount for the estimated tax prepayment notified by the Tax Office. This may be approved for reasons such as: closing or suspension of the taxpayer's business, unemployment, losses resulting from natural disasters, embezzlement, theft, medical expenses, business depression, or an increase in the number of dependents covered by the exemption.

3-7 Obligation to file consumption tax return and necessary report

- For sole business proprietors whose taxable sales exceed 10,000,000 yen for 2019
 - If your taxable sales for 2019 exceed 10,000,000 yen, **you will be categorized as a taxable person for the purpose of consumption tax in 2021**. If you newly become a taxable person, please submit "Notification of Taxable Enterprise Status for Consumption Tax (for base period) [消費税課税事業者届出書 (基準期間用)]" to the Tax Office with jurisdiction over the location of your address etc. without delay.
 - In general, the amount of consumption tax due is calculated by deducting the consumption tax imposed on taxable purchases from the consumption tax imposed on taxable sales. However, individuals whose taxable sales in the second preceding year before the taxable period amounts less than 50,000,000 yen can select the "simplified tax

system [簡易課税制度] by which the amount of tax is calculated based on the consumption tax imposed on taxable sales without calculating their actual consumption on taxable purchase. In case of selecting “simplified tax system [簡易課税制度]”, the amount of consumption tax due is calculated by to consider the amount calculated by multiplying the amount of consumption tax on taxable sales by certain “deemed purchase rates [みなし仕入率]” to be the amount of consumption tax imposed on taxable purchases.

- Sole business proprietors who will select filing returns using the simplified tax system from 2021 must submit “Report on the Selection of the Simplified Tax System for Consumption Tax [消費税簡易課税制度選択届出書]” to the Tax Office with jurisdiction over the location of your address by December 31, 2020.
- *1 Even if the sole business proprietor’s taxable sales for 2018 (the base period for 2020) do not exceed 10,000,000 yen, but the taxable sales for the specified period (the period from January 1, 2019 through June 30, 2019) exceed 10,000,000 yen, the sole business proprietor will be categorized as a taxable person for the purpose of consumption tax in 2020.
Meanwhile, you can use the total amount of salaries etc. paid instead of taxable sales to determine if you are categorized as a taxable person or otherwise.
If you become a taxable person by this method, please file “Notification of Taxable Enterprise Status for Consumption Tax (for specified period) [消費税課税事業者届出書 (特定期間用)]” to the Tax Office with jurisdiction over the location of your address without delay.
- *2 Taxable sales mean the sales from transactions subject to the imposition of consumption tax (including transactions conducted concomitantly with business activities, such as the sale of a building for business purposes). Sales from most of the transactions fall under taxable sales; however, income concerning transactions exempt from consumption tax is excluded, such as income from the sale of land and housing rent. Taxable sales also include manuscript fees, royalties, performance fees, lecturer’s fees, remuneration for lecturers, and income from a side job using the Internet.
- *3 Please note that a taxpayer under the general taxation system (those not under the simplified taxation system) may not deduct consumption tax paid at the time of purchases and the payment of expenses without both a ledger and an invoice stating taxable purchases etc.
- *4. If business operators who have difficulty in totaling up taxable purchases, etc. (including taxes) by separating them to each tax rate file “Notification of Taxable Enterprise Status for Consumption Tax by the last date of the taxation period, they will be allowed to use the simplified taxation system from the taxation period to which the date of filing the notification belongs, as a transitory measure. This treatment accompanies the introduction of an reduced tax rate system and is limited to any day that belongs to the taxation period from October 1, 2019 to September 30, 2020.
- 2. For sole business proprietors whose taxable sales exceed 10,000,000 yen for 2017
 - If your taxable sales for 2017 exceed 10,000,000 yen, you will be categorized as a taxable person for the purpose of consumption tax in 2019.

In such a case, you are required to file your consumption tax return and make tax payment by Tuesday, March 31, 2020.

- *1 Even if taxable sales are 10,000,000 yen or less for 2017, those whose taxable sales exceed 10,000,000 yen for the specified period (from January 1, through June 30, 2018) will be categorized as taxable person for the purpose of consumption tax in 2019.

Meanwhile, you can use the total amount of salaries, etc. paid instead of taxable sales to determine if you are categorized as a taxable enterprise or otherwise.

- *2 Sole business proprietors that made a purchase of specified high value asset on, may not be eligible for system of tax exemption sales thresholds for enterprises and simplified tax system for the year subsequent to the year of the date on which the purchase was made. For details, including provisional measures, please access the NTA website “Notice on the consumption tax law revision (April, 2016) (November, 2016 revision) [消費税法改正のお知らせ (平成28年4月) (平成28年11月改訂)]”.
- * Please see “Outline for consumption tax [消費税のあらまし]” for general matters and procedures, “Consumption and Local Consumption Taxes Final Return Guide [消費税及び地方消費税の確定申告の手引き]” for necessary procedures for filing tax returns and paying taxes. The various manuals and report book places it in our website (www.nta.go.jp).

A reduced tax rate system for consumption tax has been implemented on October 1, 2019

○ When preparing a book in routine accounting activities, it is necessary to perform separate accounting according to the tax rate for each of sales or purchase transactions (reduced tax rate of 8% or standard tax rate of 10%).

Points changed for preparing a consumption tax return form

In preparing the “Table for calculating the taxable sales ratio and deductible tax on purchases (Schedule 2-1)” and “Table for calculating taxable transactions” of the Consumption and Local Consumption Taxes Final Return, calculations must be implemented separately for 8% and 10% tax categories.

○ If sales include those of an item subject to the reduced tax rate, it is necessary to issue an invoice in which tax-inclusive prices totaled according to different tax rates (invoices with classified descriptions).

※ Even a tax-exempt business could potentially be required to issue invoices with classified descriptions.

Items subject to the reduced tax rate

- Food and drink excluding alcoholic drink and dining out
- Newspapers issued more than twice a week (those based on subscriptions)

→ For details, access our website (www.nta.go.jp).

◎ Attached documents for tax deductions for medical expenses

When applying for a deduction for medical expenses starting from the final return for 2017, you are required to attach the "Detailed statement of medical expense deduction" (or the "Detailed statement of self-medication taxation system" for the application of the self-medication taxation system). Receipts of medical expenses are not required to be attached or presented.

However, receipts should be kept at home as a Tax Office may request the presentation or submission of receipts (excluding those relating to a notice of medical expenses) for confirming information stated on the detailed statement in a five-year period from the due date of final returns.

* Receipts can alternatively be attached or presented until the final returns for 2019.

* Hometown tax payment one-stop special procedure system

◎ **Regarding the necessity of individual inhabitant tax return filing accompanying non-requirement of tax return filing applicable to pension recipients.**

- ② Those who have any income other than the miscellaneous income from your public pensions.

◎ **Special collection (deduction) of individual inhabitant tax on income from public pensions etc.**

In principle, for those who are already subject to special collection for fiscal year 2019 will continue to pay taxes under the special collection framework. For those reaching the age 65 at the dates of birth from April 3, 2019 through April 2, 2020 will be newly subject to the special collection framework from fiscal year 2020.

◎ **Dividend income concerning listed stocks etc.**

If the full amount of special credit for loans, etc. related to a dwelling (see page 43), cannot be deducted from income tax the remaining amount may be deducted from individual inhabitant tax for the following year (for fiscal year 2020).

To claim the treatment of this system, please be careful that it is needed to submit a final return for receiving special credit for loans, etc. related to a dwelling to the Tax Office in the district where you stayed or resided by Monday, March 16, 2020 in principle.
