## 1-2 What is the final return?

The income tax in Japan adopts procedures to calculate by the taxpayers themselves the amount of taxable income and income tax etc. on the income in accordance with their own type of residential status (see 1-3), file a final return by the due date of the following year, and settle the excess or deficiency with the amount of tax withheld or estimated tax prepayment, regarding the income earned during the year from January 1 to December 31 of that year. This procedure is called a final return.

- Income tax in Japan adopts the self-assessment system. The self-assessment system is a system under which the tax amount is primarily determined through the filing of a tax return by each taxpayer. Under this system, taxpayers, who best know the state of their own income, calculate the amount of taxable income and the tax on the income by themselves and file proper returns on their own responsibilities.
- Income tax in Japan adopts the withholding tax system for specific incomes along with the self-assessment system. Under the withholding tax system, the payers of salaries and wages, retirement allowance, interest, dividends, and fees etc. withhold the certain amounts of income tax etc. at the time of payment and pay them to the national treasury.
- You are advised that “Special Income Tax for Reconstruction” is added to the income tax for each year from 2013 through 2037. This tax is 2.1% tax on the amount of your income tax to help finance various measures of reconstructions from the aftermath of 2011 Tohoku earthquake and tsunami, which is also referred to as the Great East Japan Earthquake. In this guide, income tax and special income tax for reconstruction are referred to as income tax etc.

## 1-3 Taxpayers and the scope of taxable income

Any individual is subject to tax liability of income tax etc. in accordance with the following residential categories.

### 1. Classification for residential status

#### 1) Residents

Any individual who has a “JUSHO (domicile)” or owns a “KYOSHO (residence)” continuously for one year or more is classified as a **resident**.

Among residents, any individual of non Japanese nationality who has had a domicile or a residence in Japan for an aggregate period of five years or less within the preceding ten years is classified as a **non-permanent resident**.

#### 2) Non-residents

Any individual other than the residents mentioned in “1) Residents” above is classified as a **non-resident**.

### Note

If a person who owns a residence in Japan leaves Japan with the intent to be absent temporarily and later reenter Japan, the person shall be treated as having been residing in Japan during the period of absence.

The intention to be absent temporarily will be presumed if, during the period of absence, (a) the person's spouse or relatives remain in the household in Japan, (b) the person retains a residence or a room in a hotel for residential use after returning to Japan, or (c) the person's personal property for daily use is kept in Japan for use upon return to Japan.

**(Reference 1) Classification of taxpayers**

- In cases where an individual has not owned his or her domicile during the period from the date of entry into this country to the date on which one year has elapsed.
  - The individual mentioned above is deemed “a non-resident” until the date on which one year has elapsed from the date of entry into this country and “a resident” after the date following that on which one year has elapsed.
- In cases where an individual did not own his or her domicile in this country immediately after entry into this country, but has owned his or her domicile during the period from the date of entry into this country to that on which one year has elapsed.
  - The individual mentioned above is deemed “a non-resident” until the date before that on which he or she owned his or her domicile and “a resident” after the date on which he or she owned his or her domicile.
- In cases where an individual is a resident of non Japanese nationality and the period during which he or she has owned his or her domicile or residence in this country exceeds five years or more within the last ten years.
  - The individual mentioned above is deemed “a non-permanent resident” until the date on which five years have elapsed and “a resident other than a non-permanent resident” after the date following that on which five years have elapsed.

**(Reference 2) Judgment (presumption) of the presence of a domicile**

Fact	Judgment	Remarks
An individual's base of living is in Japan.	Judged as having a domicile	Whether the base of living is in Japan is judged by the presence of objective facts, for example, an individual has an occupation in Japan, an individual lives together with his/her spouse or any other relatives, or an individual owns a place of business.
An individual has an occupation which normally requires living in Japan continuously for one year or more.	Presumed as having a domicile	An individual who came to live in Japan in order to operate a business or engage in an occupation in Japan falls under this division (except for the case where it is clear that the period for staying in Japan is previously arranged to be less than one year by a contract, etc.)
There are facts by which it can sufficiently be presumed that an individual has been living continuously for more than one year in Japan whether such individual has the Japanese nationality and has relatives who live together with such individual, or such individual has its occupation and assets in Japan.	Presumed as having a domicile	-

**Note:** Any individual who came to live in Japan to learn science and practical arts is treated as having an occupation in Japan for the period of living for learning in Japan.

2. Scope of taxable income

1) Residents other than non-permanent residents

Residents other than non-permanent residents are obligated to pay the income tax etc. for their whole income.

2) Non-permanent residents

Non-permanent residents are obliged to pay income tax etc. with respect to their (a) income other than foreign source income, (b) foreign source income paid in Japan and (c) foreign source income paid abroad and remitted to Japan from abroad.

The amount “remitted to Japan from abroad” means, among the amount remitted and received by non-permanent residents from abroad to Japan in each year, “the amount exceeding the amount of the income other than foreign source income paid abroad” in that year.

**【Example】**

Income other than Foreign Source Income (750)		Foreign Source Income (250)	
A Paid in Japan	B Paid Abroad	C Paid in Japan	D Paid Abroad
500	250	150	100

In the case that a non-permanent resident remits and receives 260 from abroad to Japan, among the amount of 350 (B+D) paid abroad, 250 (B) portion is first deemed to be the remittance of the income other than foreign source income paid abroad, and then the remaining 10 is deemed to be the remittance of the foreign source income paid abroad (D), which will be taxed accordingly.

3) Non-residents

Non-residents are obligated to pay the income tax etc. for their domestic source income.

➤ Scope of taxable income

Classification		Income other than Foreign Source Income	Foreign Source Income	
			Paid in Japan	Paid Abroad
<b>Resident</b>	<b>Resident other than non-permanent resident</b>	Taxable

### ○ Living in the same household [生計を一にする]

"Living in the same household" normally means to live on a common budget. But in the case that an office worker lives separately from his family for his occupational reason, or that his family members live separately from him for such reasons as education and recuperation, it may, nevertheless, be treated as "living in the same household," as long as he pays for their education or recuperation, or they live together on the holidays.

You are eligible for this deduction if you pay premiums, etc. or premiums, etc. are withdrawn from your salary for health insurance, National Health Insurance, social medical insurance for the old-aged, long-term care Insurance, labor insurance, National pension, national pension fund and employee pension insurance, etc. of yourself, your spouse or relatives living in the same household as you (see page 27).

However, premiums for National Health Insurance, social medical insurance for the old-aged or Nursing-care insurance withdrawn from the pensions which are received by your spouse or relative living in the same household may not be claimed as deductions for social insurance premiums on your return.

When you pay premiums for National Health Insurance or social medical insurance for the old-aged by transfer account, those premiums may be claimed as your deductions.

You are eligible for this deduction if you, your spouse or relatives living in the same household as you (see page 27) whose total income ([総所得金額等] see page 27) is 480,000 yen or less, suffered losses or damage to property from disaster, theft or embezzlement during 2020, or you make unavoidable expenses related to disaster\*1. The deduction does not cover losses caused by damage to assets regarded as not normally required for daily living such as paintings, antiques, precious metals and second houses. These can be deducted from income from capital gains subject to the aggregate taxation (see page 24) in the year 2020 or 2021.

Those whose total amount of income ([所得金額の合計額]) \*2 is 10,000,000 yen or less and who sustained damage extending to half or more value of their residence and household effects may claim the deduction for casualty losses or, if it is more profitable, they may select the reduction or exemption under the “Act on Reduction or Release, Deferment of Collection and Other Measures Related to Tax Imposed on Disaster Victims.” (see page 46) \*3

\*1 Expenses related to disasters mean those incurred for the demolition or removal of property or household effects damaged in disasters etc. Expenses related to disasters include expenses for restoration to the original state, such as expenses to remove the earth and sand produced by a disaster only when such expenses are paid within one year after the disaster ceased (three years for a large-scale disaster, etc.).

\*2 Whether your total amount of income ([所得金額の合計額]) is less than 10,000,000 yen or not is judged by the total income ([総所得金額等]) less the amount of special exemption related to the income subject to the separate self-assessment taxation.

\*3 Whether it is more profitable for you to apply for a deduction for casualty losses or the reductions or exemptions will depend on the amount of your income and loss.

## 3 Information good to know about filing tax return & payment of tax

### 3-1 Taxation methods for the interest income and the dividend income

#### 1. Selection of the Aggregate Taxation and the Separate Self-assessment Taxation

(1) **Interest income related to dividends etc. on listed stocks etc.**

When filing, these are subject to the separate self-assessment taxation, and the aggregate taxation cannot be selected.

(2) **Dividend income related to dividends on listed stocks etc.** (Excluding those for **major shareholders**, etc. It applies for all below.)

When filing, the separate self-assessment taxation may be selected instead of the aggregate taxation. However, if you choose to use the separate self-assessment taxation, you are not eligible to receive credit for dividends.

\*1: In case of the separate self-assessment taxation, the applicable income tax rate is at 15% (inhabitant tax 5%). In addition, the special income tax for reconstruction (see page 47) is imposed in addition to income tax.

\*2: When filing the dividend income related to dividends on listed stocks, etc., either the aggregate taxation or the separate self-assessment taxation must be selected for the entire dividend income being filed.

\*Please note that you can select the separate self-assessment taxation for the interest income such as mentioned (1) above and the aggregate taxation for dividend income such as mentioned (2) above.

\*3: Even if you choose the separate self-assessment taxation, you need to write the relevant items in the block of "Statement of income (withholding income tax and special income tax for reconstruction) on Page 2."

\*4: If the dividend income is filed without selecting the separate self-assessment taxation, subsequent filing of this dividend income is not eligible for selection of the separate self-assessment taxation in the case of filing amended return or request a correction to the tax return. The same applies when the separate self-assessment taxation is selected.

#### 2. System that Eliminates the Need to Declare Dividend and Interest Income

For the following interest and dividend incomes (1) through (7), a system is in force that eliminates the need to declare said income because the withholding tax may complete taxation for said income. When choosing to use the system, however, credit for dividends or the withholding income tax etc. may not be claimed.

(1) **Small-hot dividends etc.**

(2) Interest, dividends and similar income from stocks listed on the financial instruments exchange (excluding those for major shareholders, etc.)

(3) Distribution of profit from publicly offered stock securities investment trusts

(4) Dividends etc. from specified investment corporation investment units

(5) Distribution from specified trusts issuing beneficiary securities (restricted to those issued through public offering)

(6) Distribution of profits from corporate bond-like beneficiary rights of special purpose trust (restricted to those issued through public offering)

(7) Interest on **specified bonds**

\*1: It is possible to choose the value of each dividend or interest, etc. to be received in single payments (excluding payments from withholding accounts.).

\*2: Dividends etc. from specified investment corporation investment units are not eligible for the credit for dividends, even if they are declared.

\*3: If a person did not select this system, and instead, filed a final return for these dividend and interest incomes, the person cannot switch to not reporting these dividend and interest incomes in the case of filing amended return or request a correction to the tax return. The same applies in a case which a person did select the system.

#### 3. Dividends, etc. not eligible to credit for dividends

Dividends, etc. that are eligible to credit include dividends from surplus and profits, and distribution of surplus, money and revenues of securities investment trusts earnings, which come from a corporation that is headquartered in Japan, and are limited to dividend income that is subject to the aggregate taxation in filing a final return. Therefore, dividends, etc. received from foreign corporations are not eligible to credit for dividends.

In addition, the following dividends, etc. are not eligible to credit for dividends.

(1) In the case that the system for no requirement to file a tax return is selected.

(2) In the case that the separate self-assessment taxation is selected.

(3) Interest from foundations

(4) Dividends, etc. related to distribution of revenues of management investment trusts, such as private offerings and public corporation bonds

(5) Dividends, etc. related to distribution of revenues of management investment trusts, such as overseas private offerings and public corporation bonds

(6) Dividends, etc. related to distribution of revenues of specified stock investment trusts that trace overseas stock index

(7) Dividends, etc. related to distribution of revenues of securities investment trusts, such as securities in specified foreign currency

(8) Dividends, etc. that will be received from investment trusts by public offering by qualified institutional investors

(9) Dividends, etc. that will be received from specified trusts.

(10) Dividends, etc. that will be received from specified-purpose companies

(11) Dividends, etc. that will be received from investment corporations

● **Explanation of Terms**

◆ **Dividends on listed stocks etc.**

Dividends on listed stocks, etc. refers to interest from specified bonds, distribution of profit from publicly offered stock securities investment trusts, dividend on listed stocks, and distributions of profit from public offering stock investment trusts.

◆ **Specified Bonds**

Specified bonds refers to national and local government bonds, foreign government bonds, public offering bonds, and bonds issued before December 31, 2015 (excluding corporate bonds issued by family company).

◆ **Major Shareholders etc.**

Major shareholders, etc., refers to shareholders who own 3% or more of the total outstanding shares of listed companies, etc.

◆ **Small-hot Dividends etc.**

Small-hot dividends, etc. refer to dividends, etc. for which the total value of the payment of a one-time dividend, etc. per stock issue does not exceed the amount computed in accordance with the following formula.

$100,000 \text{ yen} \times \text{number of months in the dividend computation period (maximum of 12 months)} / 12$

\* The "dividend computation period" refers to the period from the day following the base date of payment for the most recent dividend, etc. through the base date of payment for the dividend, etc. in question.

(Note)

● **Withholding Tax System**

(1) **Interest income** and **dividend income** related to dividends etc. on listed stocks, etc.

Income tax etc.(15.315%) and inhabitant tax (5%) of the amounts paid are withheld at the source.

(2) **Dividend income** from dividends for unlisted stocks and listed stocks (paid out to major shareholders)

Only income tax etc.(20.42%) of the amount paid is withheld at the source.

● **Specified Account for Withholding Tax**

Dividends and other payments from listed stocks received in withholding accounts may be subject to aggregation of profits and losses with capital gains of listed stocks in the same account, while it is also possible to elect to use the system that eliminates the need to declare dividend income for each separate account.

In addition, it is also possible to declare either the capital gains in withholding accounts or the **interest** and **dividend incomes** in the same accounts. When declaring capital losses in withholding accounts, however, the amount of interest and dividend incomes contained in the same accounts must be declared at the same time.

For details, please see "The method (example) for reporting income from sale of stocks, etc.[株式等の譲渡所得等の申告のしかた (記載例)]".

## 3-2 How to calculate the retirement income

When filing the retirement income, it is calculated as follows.

- In case of general retirement allowances, etc. which are retirement allowances other than specified officer retirement allowances only  
(Amount of earnings from general retirement allowances etc. — Deduction for retirement income\*<sup>1</sup>) × 0.5
- In case of specified officer retirement allowances, etc., which are paid as retirement allowances corresponding to a service period of five years or less as officers) only  
Amount of earnings from specified officer retirement allowances etc. — Deduction for retirement income\*<sup>1</sup>
- In case of both general retirement allowances, etc. and specified officer retirement allowances, etc. (①+②)

$$\textcircled{1} \left\{ \frac{\text{Amount of earnings from general retirement allowances etc.}}{\text{A}} - \left( \frac{\text{Deduction for retirement income}^{\text{*1}}}{\text{B}} - \frac{\text{Deduction for specified officer retirement income}^{\text{*2}}}{\text{B}} \right) \right\} \times 0.5$$

$$\textcircled{2} \frac{\text{Specified officer retirement allowances etc.}}{\text{C}} - \frac{\text{Deduction for specified officer retirement income}^{\text{*2}}}{\text{D}}$$

When falling under the following (1) or (2), one of the following is applied regardless of the above.

(1)  $\text{A} < \text{B}$

$$\left( \frac{\text{Amount of earnings from specified officer retirement allowances etc.}}{\text{A}} + \frac{\text{Amount of earnings from general retirement allowances etc.}}{\text{B}} \right) - \frac{\text{Deduction for retirement income}^{\text{*1}}}{\text{B}}$$

(2)  $\text{C} < \text{D}$

$$\left\{ \frac{\text{Amount of earnings from general retirement allowances, etc.}}{\text{C}} - \left( \frac{\text{Deduction for retirement income}^{\text{*1}}}{\text{D}} - \frac{\text{Amount of earnings from specified officer retirement allowances, etc.}}{\text{D}} \right) \right\} \times 0.5$$

\*1 The deduction for retirement income is calculated as follows.

- For individuals whose employment period is 20 years or less;  
400,000 yen × number of years of employment ("800,000 yen" if less than 800,000 yen)
- For individuals whose employment period is more than 20 years:  
700,000 yen × number of years of employment - 6,000,000 yen

Individuals who have ceased working due to a disability may add 1,000,000 yen to the amounts as calculated above. Please note that the amount of deduction may be different in certain cases, such as you had another retirement income in the past years.

\*2 The deduction for specified officer retirement income is calculated as follows.

- In the case that there is no overlap between the service period concerning specified officer retirement allowances and the service period concerning general retirement allowances, etc.  
400,000 yen × Service years of specified officers, etc.
- In the case that there is overlap between the service period concerning specified officer retirement allowances, etc. and the service period concerning general retirement allowances, etc.  
400,000 yen × (Service years of specified officers, etc. — Overlapped service years)  
+ 200,000 yen × Overlapped service years

◎ For the amount of earnings from retirement income and the deduction for retirement income, please write them in the block "Matters relating to the retirement income" on the third page of your return. If you received a specified officer retirement allowance, please write the amount of earnings and the deduction for the retirement income in brackets on the upper column. Furthermore, please write the relevant items in the block "Statement of income (withholding income tax and special income tax for reconstruction)" on Page 2.

## 3-3 In Case of Suffering from Disaster

If you are suffered from a disaster, there are procedures for filing a tax return and tax payment etc. as follows.

For details, access our website or consult the nearest Tax Office.

- If you cannot file a return or pay tax by the due date, due to a reason such as a disaster, you can extend the due date within 2 months from the day on which the said reasons ceased to exist.
- In case of damage to houses or household goods etc. due to a disaster, you can claim the deduction for casualty loss under the provision of the Income Tax Law (see page 38) or the reduction or exemption under the provisions of the Law Relating to Exemptions, Deductions and Deferment of Tax Collection for Disaster Victims. (see page 46)

### 3-4 In Case Tax Payment is Delayed

If a taxpayer fails to pay tax by the due date of tax payment (Monday, March 15, 2021), or if the tax payment by transfer account cannot be made due to insufficient balance of the account, the delinquent tax will be imposed.

In such a case, pay the delinquent tax with the principal tax together at financial institutions or the Tax Office that has jurisdiction over your address.

March 16 to May 15, 2021	“7.3 % per annum” or “Special Standard Rate for Delinquent Tax + 1%,” whichever is lower.
May 16, 2021~	“14.6 % per annum” or “Special Standard Rate for Delinquent Tax + 7.3%,” whichever is lower.

\* Delinquent tax is calculated for the number of days starting from the day following the due date for tax payment to the day on which the whole amount of the principal tax is paid and at the following rate.

“Special Standard Rate for Delinquent Tax” is the rate announced by the Minister of Finance by November 30 of the previous year as the annual average contractual interest rate on bank short-term loan of each month from September of the second preceding year to August of the previous year, plus 1% p.a.

### 3-5 In Case of Mistakes on a Tax Return

- In the event of mistakes in the amount of tax declared or other details of a return, the following methods should be followed.
- Before the statutory tax return due date for filing tax returns, correct mistakes, prepare a new final return and submit it by the due date.
- After the statutory tax return due date, correct the declared contents according to the following methods.

	Method of Correction
When tax amount, etc. declared in return is less than what it should be	File “amended return” to correct amount. <sup>(*1)</sup>
When tax amount declared in return is greater than what it should be	Request a correction to the tax return in order to correct amounts. <sup>(*2)</sup>

\*1 If an incorrect return amount is not voluntarily corrected, a District Director of Tax Office will correct it.

\*2 In principle, a request for correction is allowed within 5 years from the statutory tax return due date.

- If you have forgotten to file a return by the statutory tax return due date you are requested to file as soon as possible. Furthermore, in cases where there is no final income tax return filed although it is necessary to file, a District Director of Tax Office will decide on the amount of income and tax.
- Please note that in cases where the District Director of Tax Office corrects or makes a determination on a return or cases where returns are filed after the filing deadline, **an additional tax** may be levied, and concurrent payment of a **delinquent tax** will also be required for the period from the day following the legal filing deadline through the date of actual payment.

### 3-6 Estimated income tax etc. prepayment and Application for reduction of estimated tax prepayment

Income tax etc. are to finally calculate income and tax amount for one year and a final return is filed during the filing period of the following year and the tax in question is paid.

Meanwhile, the Tax Office notifies the taxpayer of the amount of estimated income tax etc. prepayment in cases where the base amount for the estimated tax prepayment calculated based on the previous year’s final tax return is 150,000 yen or more. The taxpayer is then requested to pay the tax liability in two installments, in July and November. This system is called estimated income tax prepayment.

Taxpayers may submit an application to have the amount of estimated tax prepayment reduced if their income tax etc. amounts of the following year are estimated to be less than the amount of the base amount for the estimated tax prepayment notified by the Tax Office. This may be approved for reasons such as: closing or suspension of the taxpayer’s business, unemployment, losses resulting from natural disasters, embezzlement, theft, medical expenses, business depression, or an increase in the number of qualified dependents.

### 3-7 Obligation to file consumption tax return and necessary report

1. For sole business proprietors whose taxable sales exceed 10,000,000 yen for 2020
  - If your taxable sales for 2020 exceed 10,000,000 yen, **you will be categorized as a taxable person for the purpose of consumption tax in 2022**. If you newly become a taxable person, please submit “Notification of Taxable Enterprise Status for Consumption Tax (for base period) [消費税課税事業者届出書 (基準期間用)]” to the Tax Office with jurisdiction over the location of your address etc. without delay.
  - In general, the amount of consumption tax due is calculated by deducting the consumption tax imposed on taxable purchases from the consumption tax imposed on taxable sales. However, individuals whose taxable sales in the second preceding year before the taxable period amounts less than 50,000,000 yen can select the “simplified tax system[簡易課税制度]” by which the amount of tax is calculated based on the consumption tax imposed on taxable sales without calculating their actual consumption on taxable purchase. In case of selecting “simplified tax system[簡易課税制度]”, the amount of consumption tax due is calculated by to consider the amount calculated by multiplying the amount of consumption tax on taxable sales by certain “deemed purchase rates[みなし仕入率]” to be the amount of consumption tax imposed on taxable purchases.
  - Sole business proprietors who will select filing returns using the simplified tax system from 2022 must submit “Report on the Selection of the Simplified Tax System for Consumption Tax[消費税簡易課税制度選択届出書]” to the Tax Office with jurisdiction over the location of your address by December 31, 2021.
- \*1 Even if the sole business proprietor’s taxable sales for 2019 (the base period for 2021) do not exceed 10,000,000 yen, but the taxable sales for the specified period (the period from January 1, 2020 through June 30, 2020) exceed 10,000,000 yen, the sole business proprietor will be categorized as a taxable person for the purpose of consumption tax in 2021.

Meanwhile, you can use the total amount of salaries etc. paid instead of taxable sales to determine if you are categorized as a taxable person or otherwise.

If you become a taxable person by this method, please file “Notification of Taxable Enterprise Status for Consumption Tax (for specified period) [消費税課税事業者届出書 (特定期間用)]” to the Tax Office with jurisdiction over the location of your address without delay.
- \*2 Taxable sales mean the sales from transactions subject to the imposition of consumption tax (including transactions conducted concomitantly with business activities, such as the sale of a building for business purposes). Sales from most of the transactions fall under taxable sales; however, income concerning transactions exempt from consumption tax is excluded, such as income from the sale of land and housing rent. Taxable sales also include manuscript fees, royalties, performance fees, lecturer’s fees, remuneration for lecturers, and income from the Internet.
- \*3 Please note that a taxpayer under the general taxation system (those not under the simplified taxation system) may not deduct consumption tax paid at the time of purchases and the payment of expenses without both a ledger and an invoice stating taxable purchases etc.
2. For sole business proprietors whose taxable sales exceed 10,000,000 yen for 2018
  - If your taxable sales for 2018 exceed 10,000,000 yen, you will be categorized as a taxable person for the purpose of consumption tax in 2020.

In such a case, you are required to file your consumption tax return and make tax payment by Wednesday, March 31, 2021.
  - \*1 Even if taxable sales are 10,000,000 yen or less for 2018, those whose taxable sales exceed 10,000,000 yen for the specified period (from January 1, through June 30, 2019) will be categorized as taxable person for the purpose of consumption tax in 2020.

Meanwhile, you can use the total amount of salaries, etc. paid instead of taxable sales to determine if you are categorized as a taxable enterprise or otherwise.
  - \*2 Sole business proprietors that made a purchase of specified high value asset on, may not be eligible for system of tax exemption sales thresholds for enterprises and simplified tax system for the year subsequent to the year of the date on which the purchase was made. For details, including provisional measures, please access the NTA website “Information on the Revision or Consumption Tax Act (April, 2016) (November, 2016 revision) [消費税法改正のお知らせ (平成28年4月) (平成28年11月改訂)]”.
- \* Please see “Outline for consumption tax[消費税のあらまし]” for general matters and procedures, “Consumption and Local Consumption Taxes Final Return Guide[消費税及び地方消費税の確定申告の手引き]” for necessary procedures for filing tax returns and paying taxes. The various manuals and report book places it in our website (<https://www.nta.go.jp>).

## 3-13 Notification from Local Governments

For further details, please contact your local government office.

◎ **Regarding the necessity of individual inhabitant tax return filing accompanying non-requirement of tax return filing applicable to pension recipients.**

Pension recipients who are not required to file tax returns of income tax etc. (see page 23) are still required to file individual inhabitants tax returns if the below conditions are met:

- ① Those who only have miscellaneous income relating to public pensions etc. and will take various deductions other than deductions indicated on “withholding tax statement for public pension payments etc.” (deduction for social insurance, exemption for spouse, exemption for dependents, basic exemption, etc.); or
- ② Those who have any income other than the miscellaneous income from your public pensions.

◎ **Special collection (deduction) of individual inhabitant tax on income from public pensions etc.**

In principle, for those who are already subject to special collection for fiscal year 2019 will continue to pay taxes under the special collection framework. For those reaching the age 65 at the dates of birth from April 3, 2020 through April 2, 2021 will be newly subject to the special collection framework from fiscal year 2021.

◎ **Dividend income concerning listed stocks etc.**

Regarding dividend income concerning listed stocks, when a taxation method selected for individual inhabitant tax is different from the taxation method for income tax etc. (including cases where dividend income concerning listed stocks is not declared for individual inhabitant tax purposes), an individual inhabitant tax return needs be filed.

◎ **Special tax credit system for loans, etc. related to a dwelling in individual inhabitant tax**

If the full amount of special credit for loans, etc. related to a dwelling cannot be deducted from income tax (see page 44), the remaining amount may be deducted from individual inhabitant tax for the following year (for fiscal year 2021).

To claim the treatment of this system, please be careful that it is needed to submit a final return for receiving special credit for loans, etc. related to a dwelling to the Tax Office in the district where you stayed or resided. Anyone who received this deduction through the year-end adjustment is excluded from this system.

In cases where such documents are submitted or presented to payers who are obliged to withhold income tax for withholding at the source of salaries (public pensions) or the year-end adjustment, it is not necessary to attach such documents to the final tax return forms or to present them.

3 In cases when the Documents for Deductions/Tax Credits for Donations are unavailable by the filing deadline for the final return, in place of such documents, a copy of receipts for such contributions should be attached when filing the return. Subsequent to that, the actual documents should be promptly submitted to the Tax Office when they become available at a later date.
